

RFQ – 2024 Specialized Dam Maintenance

The Upper Brushy Creek WCID owns and maintains 15 small and 7 intermediate size dams in southwest Williamson County. Please visit UBCdams.org for the whole dam story about UBC.

UBC desires to prequalify multiple service contractors with the skills, staffing, equipment, and responsiveness to assist with work at our 22 dams. We have a long established relationship with a contractor for these services; however, the contractor and staff are not local and availability and/or response times do not always align with needs. Additionally, a large storm event could create issues at multiple dams necessitating additional resources.

We invite companies with the experience and skills necessary to complete the work to fill out the abbreviated Request for Qualifications (RFQ) form. Beginning March 18 and continuously as needed, UBC will review RFQs and contact the most qualified companies to finalize the vetting process and initiate service contracting process.

Please direct RFQ submissions and any questions to Clerk@UBCdams.org

Work may include but is not limited to:

- **Planned maintenance activity** includes annual inspection, operation, and maintenance of valves, trash cages, and related infrastructure. Work often includes clearing sediment build up (underwater) from valve opening, removal of minimal debris from trash cages, etc. Tasks are typically planned annually for the majority of dams at one-time during summer.
- **Specialty individual tasks** may include repair and/or reconfiguration of trash cages, repair and/or replacement of valves, replacement of port covers, modification of port openings, replacement manway access panels, etc. Tasks are typically planned for individual dams as needed.
- **Storm related tasks** may include removal of flood debris, beaver clogs, valve operations, etc. Tasks are on an as needed basis and typically require on-site services within 3-5 business days following the storm. Occasionally, services would be considered emergency requiring less than 24 hour response.

*Typical intake as originally built. All have been modified with additional trash cages.

Response to RFQ – 2024 Specialized Dam Maintenance

General Information

- A. Company Name**: _____
- B. Primary Contact Name: _____ Mobile #: _____
- C. Primary Contact Email: _____
- D. Location of equipment and staff: _____
- E. Number of employees who can perform tasks listed below: _____

**Please note that all companies must have appropriate bonding and insurance and provide proof upon request.

Provide references for the most recent work performed in each category or mark as N/A.

For example...

1. *Valve Operation and Maintenance*
 - a. *Operate standard intake valve*
 - i. Collin County SWCD 2020 – 2024 (current)
 - ii. Plum Creek Conservation District 2016 - 2022
 - iii. Lower Brushy Creek WCID 2015 - 2018

Work Experience

1. Valve Operation and Maintenance

- a. Operate standard intake valve
 - 1) _____
 - 2) _____
 - 3) _____
- b. Repair and/or replace standard intake valve
 - 1) _____
 - 2) _____
- c. Removal of debris from underwater valves
 - 1) _____
 - 2) _____

2. Riser and Trash Rack

- a. Removal of debris
 - 1) _____
 - 2) _____
 - 3) _____
- b. Repair and/or replace
 - 1) _____
 - 2) _____

Response to RFQ – 2024 Specialized Dam Maintenance

3. Conduit clearing

a. Removal of debris and clogs

- 1) _____
- 2) _____
- 3) _____

Specialty Skills

A. Specialty Diving - Work often requires divers experienced with working in limited visibility conditions and the potential hazards of unclogging an upstream culvert.

Please describe the experience, certification, and capabilities of your diver team(s).

If divers are contracted, please provide the name of dive company.

References – Owner and Date of Activity

- I. _____
- II. _____
- III. _____

B. Other Specialty Skills or Equipment (e.g. amphibious excavator, small barge)

Name and Description - _____

References – Owner and Date of Use

- I. _____
- II. _____

Name and Description - _____

References – Owner and Date of Use

- I. _____
- II. _____

If there are additional skills or services that may be useful to the District, please describe on this additional page and provide reference Owner and Date of Use.
